

Another evidence of the great mistakes of our gold friends in Nevada comes from Washington. The Carson Mint, through the exertions of Congressman Newlands, is not to be abolished this year. The sub-committee of the Coinage Committee of the House of Representatives proposed to recommend the dismantling of the Carson Mint. The Director of the Mint also favored it. The idea prevailed at Washington that there are not honest men enough in Nevada to run the mint, and in support of that view the committee pointed to the manner in which the mint had been plundered by those entrusted with its management. When the sub-committee was about to report Congressman Newlands asked leave to make a statement, and presented strong arguments against dismantling the mint. He dissuaded the committee from its original intention, and the mint will not be abolished this year, and if the silver men of all parties unite on a Presidential candidate it will be running to its full capacity coining standard dollars within eighteen months.

Now the people of Nevada have incontrovertible proof that the assertion of our gold friends that Mr. Newlands was without party and without influence at Washington is wholly unfounded; in fact, absolutely untrue. He has saved the Carson Mint for this year, and it will be the fault of the people themselves if it is not coining silver next year. We could not have a more influential Representative at Washington, nor one who attends more faithfully to the interests of his constituents than Francis G. Newlands. He has procured more pensions for deserving applicants and done more to get mail facilities for the State of Nevada in the three years he has been in Congress than had been accomplished before in three last length of time by his predecessors, even when the Representative and both Houses of Congress and the Administration were of the same political persuasion.

COUNTING CHICKENS BEFORE THEY ARE HATCHED.

The friends of the several Republican candidates and favorite sons at Washington amuse themselves and to some extent the public by counting the delegates, who have not yet been elected, for their favorite for President. The Republican National convention will be composed of 933 delegates. Of these the McKinley men claim 413, on the first ballot. They count upon nearly all the delegates from the South, 20 from Illinois, 20 from Indiana, 20 from Wisconsin, 61 from Nebraska, 16 from Kansas, 12 from West Virginia and nearly all the votes from the silver producing and Pacific Coast States. The friends of the other candidates dispute the claim of the McKinley men. Senator Quay estimates that McKinley will have 300 votes, Reed 215, Morton 97, Allison 80, Quay 76, Cullom 55, Bradley 36, Davis 32, with 50 votes scattering. These 30 are like the negro boy's little black pig that kept running round so he couldn't count him to save his life. There may be many others just as lively in the convention, especially if there is a suspicion that Governor Morton proposes to open a barrel to increase his strength. As an instance of what money may do in the convention, the Chicago Tribune, goldbug Republican, says "if anybody is anxious to know who will inherit the Indiana delegates he can find out by addressing 'Receiver Harrison Boom, Indianapolis, Indiana,' with a certified check for one-third the amount of his bid."

SENATOR JONES was roundly abused by our friends who talk silver and vote gold for obstructing legislation in the Senate. Five of the 27 Republicans who voted on Morrill's motion to take up the Dingley bill followed the example of Senator Jones. Our Nevada Republicans now know that all the Republicans in the Senate do not agree with them; in fact, several Senators admit that Senator Jones was right when he said the Republican organization is unalterably opposed to the free coinage of silver at 16 to 1 or at all.

JAMES J. HILL, the magnate of the Great Northern Railroad, was opposed to the incorporation of Hilliard, near Carson, Nevada, as a road shop. The people voted for incorporation by a majority of three, and those elected to office at once voted themselves large salaries, and as Hill owned two-thirds of the property they expected him to pay that proportion of the taxes. Hill will not have it that way, and declares that if the town is not discontinued he will remove the railroad shops.

Balfour in the House of Commons yesterday denied that Germany had approached Great Britain with a view to an agreement on the monetary question. He said the British Government was willing to consider the reopening of the Indian mints if such action could be made a part of a satisfactory scheme of currency reform.

The British case in the Venezuelan boundary dispute is made up and advance copies of the papers have been sent to Ambassador Bayard and mailed to Washington.

The Goebel bill to repeal the charter of the Southern Pacific Company was defeated in the Senate of the Kentucky Legislature by a vote of 26 to 8.

CONGRESSIONAL PROCEEDINGS.

Cuban Resolutions Adopted by the Senate.

WASHINGTON, February 28.—In the Senate to-day the Cuban resolutions were discussed. Lindsay said that the only results of the trouble in Cuba would be the complete independence of Cuba or the utter annihilation of the Cuban people. The only step by Congress which would avail would be the recognition of the complete independence of Cuba. The resolution did not contemplate active intervention. It extended our good offices to Spain with the view of securing the ultimate independence of Cuba.

Spain owed Cuba as much as Turkey owed Armenia, or as the United States owes Venezuela, but Spain contemplated the annihilation of all the able-bodied men in Cuba to crush the insurrection. Sherman closed the debate and said that the United States must intervene and stop a crime which was beyond description. Sherman said he did not favor Cuban annexation to the United States, but strongly favored Cuban annexation to Mexico, with its kindred people.

Gallinger followed Sherman in the Senate with a strong appeal for the recognition of Cuban independence. He said that Cuba was making a struggle the same as the United States made in 1776, and that Weyler was a tyrant. He believed that Cuba would attain its independence, but this country could make the contest briefer with the proper word of encouragement.

The Senate Committee on Elections and privileges to-day appointed a sub-committee consisting of Mitchell of Oregon, Burrows and Turpie, to consider Mitchell's resolution for the election of Senators by a direct vote of the people, with instructions to report on Friday.

The Senate passed the Cuban resolutions recognizing the belligerency of the Cubans and requesting President Cleveland to exercise his friendly offices with Spain to secure the independence of Cuba.

The resolution was adopted by a vote of 64 to 6.

Death From Despondency

NEW YORK, February 28.—Jacob Fugalsaler, a German, about 40 years of age, committed suicide in Union Hill by hanging himself last night. He had been out of work for some time past, and this made him despondent. Fugalsaler tied a red handkerchief around his neck, and tying one end around a board near the mantel, he slowly struggled to death.

Gladness Comes

With a better understanding of the transient nature of the many physical ills which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness, without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only, and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, then laxatives or other remedies are not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, then one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

## WEATHER BULLETIN.

Foster Predicts a Disturbance of Unusual Force.

[Copyright by Prof. W. T. Foster.]

Sr. Joseph, Mo., February 28.—My last bulletin gave forecasts of the storm wave to cross the continent from 20th to March 4th, and the next will reach the Pacific coast about the 5th, cross the west of the Rockies country by the close of the 6th, the Great Central valleys 7th to 9th, and the Eastern States the 10th.

The warm wave will cross the west of Rockies country about March 5th, Great Central valleys 7th, and the Eastern States the 9th. A cold wave will cross the west of Rockies country about March 8th, Great Central valleys the 10th, and the Eastern States the 12th.

The third disturbance of March will be of unusual force and importance and will probably cause tornadoes in some of the Southern States.

This disturbance will reach the Pacific coast about the 12th, cross the west of the Rockies country by the close of the 13th, Great Central valleys 14th to 16th and the Eastern States the 17th.

This storm including the low and its counterpart, high, following will take a southern route and in some of the Southern States serious results from killing frosts are probable.

I give special warning of a blizzard in the upper Missouri valleys about March 16th. By Missouri valleys I mean all the country drained by the Missouri river and its tributaries.

The effects of this storm will be felt in every part of the United States, but its central part will probably be west of the Missouri river, through the Indian Territory thence eastward through the Southern States with rains south and east of its central path, sleet, snow and cold weather on the north side of its track.

The warm wave preceding the last named storm will cross the west of Rockies country about the 12th, Great Central valleys the 14th and the Eastern States the 16th. Following the low or warm wave will be a cold wave or high and it will cross the west of Rockies country about the 15th, Great Central valleys the 17th and the Eastern States the 18th.

VAUGHAN ARRIVES.

His Trial Transferred From Lander to This County.

Alpheus Vaughan, whose case has been transferred from Lander county to this, arrived on the west-bound train last night in charge of Sheriff Easton of Lander county. Vaughan, it will be remembered, was charged with the Lister murder in Lander county that occurred over a year ago and has been tried twice and found guilty each time of murder in the first degree, but in each instance on an appeal to the Supreme Court, sufficient grounds were found to grant a new trial. It has been conceded that a third jury could not be obtained in Lander county, hence the change of venue to this.

Those who were at the train last evening and who had never seen Vaughan, expected to see a hard-faced criminal, but were surprised when he stepped down from the car, at seeing comparatively a boy of 19 or 20 years old, rather good looking and in no way indicating a criminal, his handcuffs being the only unpleasant feature in his general appearance. Sheriff Coughlin took charge of him and he was taken to jail to await his third trial.

A Chance for Home Seekers or Investors.

Wm. Thompson will advertise in the JOURNAL to-morrow a large amount of property for sale, consisting of real estate and personal property, the latter covers stocks, notes securities, fine bred horses, vehicles, harness, etc. He will offer everything at low figures and will give special inducements to anyone wishing a home, good investment or a speculation. Mr. Thompson has determined to retire from active business and will take pleasure in showing to purchasers what he has to sell and will make the best of terms to responsible buyers. Watch his announcement to-morrow and take an early advantage of the opportunities he offers.

The Modern Witches.

Miss Anna Eva Fay will be at the Opera House to-night and will simply astonish and mystify the audience with her wonderful exhibition. Her cabinet scene is a marvel of mystery, and the talking band, walking handkerchief and flying tables are enough to startle one. Blindfolded and isolated from the audience she calls the name and answers questions asked her in thought by those present. Seats on sale at Lake's Book Store.

Becklen's Arctica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns and all skin eruptions, and positively cures piles or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by S. J. Hodgkinson.

District Court.

Lee Brooks, who was indicted by the late Grand Jury, was arraigned in court yesterday to plead. His attorney, T. V. Julien, appeared and found the indictment irregular and the matter was again submitted to the Grand Jury which is still in session, and the prisoner remanded to jail.

Guild Meeting.

The Woman's Guild of Trinity Church will meet to-day, February 29th, at 2 p. m., with Mrs. Colwell.

## WRITS OF CERTIORARI.

The Supreme Court Grants Them in the Railroad and Justice's Court Cases.

On the 24th of the present month the Supreme Court granted two alternative writs of certiorari of local interest. One writ was issued upon the petition of Wm. Thompson and H. H. Beck, and is directed to the Board of County Commissioners of Washoe county, commanding the Board to certify to the Supreme Court their proceedings in reference to the employment of counsel to assist the District Attorney in the suit against the Virginia & Truckee Railroad Company for delinquent taxes of 1895. The petition alleges that the Board exceeded its jurisdiction in contracting to pay \$1,000 for such legal services without first advertising for proposals and without stating the nature thereof, and without allowing other competent persons an opportunity to bid for such contract. The action of the Board is alleged to be illegal upon the further ground that it is the duty of the Attorney-General to conduct and manage all litigation in the Supreme Court for the collection of taxes.

The other writ was issued upon the petition of Wm. Thompson and is directed to the Second Judicial District Court, Washoe county, and the purpose is to obtain a judicial interpretation of Section 3604 of the General Statutes in relation to taxing costs in the District Court upon appeal from Justice's Courts.

The writs have been sent down and will be served to-day or Monday.

## The West Point Cadetship.

RENO, Nevada, February 28, 1896.

The University Nevada Cadet Corps in mass meeting assembled appeals to Nevada's Representative in Congress, Hon. F. G. Newlands, begging him to revoke his appointment of S. B. Hamilton as the alternate of G. R. Bliss for the West Point Cadetship. We believe the above appointee, being a non-resident of the State, does not represent this Congressional district; and that, in any event, a competitive examination should be held, that all young men should have a fair show.

## Old People.

Old people who require medicine to regulate the bowels and kidneys, will find the true remedy in Electric Bitters. This medicine does not stimulate and contains no whiskey nor other intoxicant, but acts as a tonic and alternative. It acts mildly on the stomach and bowels, adding strength and giving tone to the organs, thereby aiding nature in the performance of the functions. Electric Bitters is an excellent appetizer and aids digestion. Old people find it just exactly what they need. Price 50c. per bottle at Hodgkinson's Drug Store.

## The Grand Jury.

The Grand Jury was in session all day yesterday. The committees were hard at work, but did not complete their labors as was expected yesterday. It is probable that a full report will be submitted to-day, and it will be looked forward to with interest.

## Always "On Top."

Readers of newspapers during the past year or more could hardly fail to notice the published statements of leading druggists in various parts of the country concerning the sales of Hood's Sarsaparilla. It was a matter of general comment among dealers when Hood's Sarsaparilla was first placed upon the market and rapidly pushed itself to the front among medicines. It is even more noteworthy that it has steadily maintained its position "on top," and that its sales continue to be the largest in the world. It is especially significant when a great body of men like the druggists and pharmacists of this country, publicly testify from their personal knowledge that the sales of Hood's Sarsaparilla are larger than those of any other similar preparation, and that customers return, time after time, and call for Hood's Sarsaparilla, refusing to take anything that may be offered in its place. It shows that the people have found Hood's Sarsaparilla to be an honest and meritorious article.

But it is not upon reports of the great sales of Hood's Sarsaparilla that the proprietors base their claims for its superior merits. The same mails that bring in the statements of druggists that Hood's Sarsaparilla is out-selling all other blood medicines, are also laden with testimonials from people who have taken Hood's Sarsaparilla and have found in it a cure for their diseases and permanent relief from suffering.

The great sales of Hood's Sarsaparilla are due to its great cures, and the great cures by Hood's Sarsaparilla are accomplished in a perfectly natural and thoroughly simple way.

Hood's Sarsaparilla cures disease by making pure, rich, healthy blood. It cures a great variety of diseases because a great variety of diseases are caused by impure and impoverished blood. It cures completely and permanently because it removes the cause of the trouble so that there no longer remains any reason for the suffering. It cures scrofula, rheumatism, catarrh, dyspepsia, biliousness, kidney complaint, and other ailments because these diseases have their origin in the blood. Thousands of people who once suffered from such troubles are alive and well to-day, and say that they cannot help praising Hood's Sarsaparilla because it has given them good health, lengthened their lives and afforded them new opportunities for happiness and usefulness.

It is a beneficent work that Hood's Sarsaparilla is doing. It helps poor tired mothers by purifying and enriching their blood and giving them appetite and strength. It builds up broken down constitutions, relieves the pangs of rheumatism and neuralgia, dispels the horrors of dyspepsia and nervous prostration, overcomes the symptoms of catarrh, eradicates scrofula, salt rheum and all blood diseases, and makes the weak and debilitated feel strong and vigorous.

## Sousa's Band Coming.

The appearance of Sousa and his band at the Opera House for a grand concert on Wednesday evening will arouse a general interest in artistic and musical circles in this city. There is no need to enlarge upon the merits of Sousa or his band. Their position is assured and their laurels have been honestly won. Sousa comes to Reno with increased prestige. His band is now playing toward the close of the largest series of continuous concerts ever given in this country by an instrumental body, and the organization is playing in a form which is the natural result of such a series of lengthy concerts. Reserve seats at Lake's book store.

## Live Stock Movements.

Joe Farman arrived on the N.-C.O. last evening with ten cars of cattle for M. E. Ward.

E. H. Hamlin shipped two cars of cattle to Grass Valley yesterday.

Joe Blackburn will arrive from the north to-day with four cars of cattle.

M. E. Ward shipped eleven cars of cattle west yesterday to Oakland, and Martin shipped two cars to Reno.

J. H. Talbot shipped fourteen cars of sheep.

Five cars of cattle arrived from Carson on yesterday's local for the Western Meat Company and eight more were added here and the whole shipped to Baden.

MOST PERFECT MADE.

A pure Grape Cream of Tartar Powder. Free from Ammonia, Alum or any other adulterant. 40 YEARS THE STANDARD.

Two Lives Saved.  
Mrs. Phoebe Thomas, of Junction City, Ill., was told by her doctors she had consumption and that there was no hope for her, but two bottles of Dr. King's New Discovery completely cured her, and she says it saved her life. Mr. Thos. Eggers, 139 Florida St., San Francisco, suffered from a dreadful cold, approaching consumption, tried without result everything else, then bought one bottle of Dr. King's New Discovery and in two weeks was cured. He is naturally thankful. It is such results, of which these are samples, that prove the wonderful efficacy of this remedy for coughs and colds. Free trial bottles at Hodgkinson's Drug Store. Regular size 50c. and \$1.

## Colony Coming to Nevada.

Henry L. Freeby, a G. A. R. man, at present residing in Carson, the Tribune says, has received a letter from Isaac M. Moore, an old comrade at Ellensburg, Kittitas county, Wash., informing him that quite a colony is forming there to come and locate in Nevada this spring. Mr. Freeby has been instructed by his friend to visit the State Land Office and procure a description of available agricultural land on which the colony may locate.

## Lots of Talk.

About Parks' Cough Syrup is what we desire. Everyone who tries this remedy says that it has no equal in the cure of all diseases of the throat and lungs. We know it will cure any cold and do it in the shortest possible time. You don't know this, but you will agree with us if you only try one bottle of Parks' Cough Syrup. Sold by S. J. Hodgkinson.

## THE MODERN WAY

Commends itself to the well informed, to do pleasantly and effectively what was formerly done in the crudest manner and disagreeably as well. To cleanse the system and break up colds, headaches and fevers without unpleasant after effects, use the delightful liquid laxative remedy, Syrup of Figs. Manufactured by California Fig Syrup Company.

My lady looks into the mirror  
And her face it glows with delight,  
As she sees the vast improvement  
Since she used Parks' Tea each night.  
She is never tired or weary,  
Her ills and her pains have fled;  
Since she drank of Parks' Tea each evening.  
A cup full on going to bed  
Sold by S. J. Hodgkinson.

A Carson lawyer wrote as follows to a widow of a deceased friend: "I cannot tell you how pained I was to hear that your husband has gone to Heaven. We were bosom friends, but now we shall never meet again."

When the heart is full of sorrow,  
When the soul is full of pain,  
When the body is full of trouble,  
When the mind is full of care,  
Then the heart is full of sorrow,  
When the soul is full of pain,  
When the body is full of trouble,  
When the mind is full of care.

The Howard of Merit.

One of the institutions of Combe  
Florey was a handsome china bowl half  
filled with colored wafers, such as were  
then in general use for closing letters,  
and placed in the center of Sydney  
Smith's large writing table, just behind a  
"restoration" of a faded manuscript  
silver, which he spoke of as his "font of  
inspiration." On the evening after  
our arrival at the rectory, when bedtime  
had sounded for me, and I went up to  
the dear old man to bid him good night,  
he took me between his knees, drew  
the bowl toward him, and picking out a  
white wafer pressed it hard upon my  
forehead, saying: "While you stay with  
us, in this wise every night I shall sig-  
nify to you that throughout the day,  
Absolutely irreproachable behavior will  
be rewarded by a white wafer. Any  
trivial misdemeanor will be gently hint-  
ed at by a colored wafer. A black wafer  
will mean that you have done something  
really wrong and that I am seriously  
displeased with you. Now go to bed,  
dear child, sleep well, and if you must  
dream, let it be of white wafers."—  
"Men, Cities and Events," by Betty  
Kingston.

Prince Napoleon.

Prince Napoleon in 1870 was some-  
thing of a prophet. When he heard of  
the emperor's declaration of war, he  
hurried to St. Cloud and had a stormy  
interview with the emperor. He didn't  
hesitate to say, "It is the emperor who  
has brought this upon us," and the em-  
peror, while offended at his frankness,  
admitted that "your presentiments per-  
haps correspond with mine." Then the  
prince fired his last shot and showed  
that though he might goastray in many  
things, he knew of the weakness of  
France and the strength of Germany.  
He turned on his heel and, with that  
biterness which he didn't hesitate to  
exhibit when occasion required, said:  
"So be it, so be it! Let us, however,  
make haste to make our possessions, for  
we are already beaten." And so the re-  
sult proved.—New York Herald.

What He Needs.

"What I need," said the statesman in  
speaking of his work in Washington,  
"is a good private secretary to look after  
my correspondence, so that I can give  
more time to affairs in the house."  
"What you need," returned his con-  
sistent earnestly, "is a real good man  
to do your speeches while you attend  
to your correspondence. It would be  
foolish to have your letters more con-  
cise and better written than your pub-  
lic addresses."—Chicago Post.

Revolutions are not made; they come.  
A revolution is as natural a growth as  
an oak. It comes out of the past. Its  
foundations are laid far back.—Wendell  
Phillips.

A Dancer In Kurdistan.

The performers had already drawn  
themselves up in line when I arrived,  
and a minute later the shrill notes of  
the pipo gave the signal for the dancing  
to commence. Some score of young  
men and women stood shoulder to shoul-  
der, clapping hands, the line forming a  
crescent. At the given signal, the clap-  
ping of his hands by a youth who stood  
in front of the circle of performers,  
the dance commenced, the entire line of  
men and women stepping slowly for-  
ward and then back again, each pace  
being taken a little to the right, so that a  
"clapping movement" was given to the  
series of dancers. As the music quick-  
ened so did the pace, and at each step  
the body from the waist upward was  
bent forward and drawn back. Nor were  
the steps themselves the same, for the  
youth who gave them time ran up and  
down the line clapping his hands and  
singing and shouting directions and  
changes.

The principal feature of the dance  
seemed to be the bringing down of the  
right foot smartly upon the ground at  
intervals, when, hand in hand, the  
whole company remained with their  
bodies bent for a second or two, to spring  
back into position again at a fresh blow  
of the pipes. Meanwhile the slow rotat-  
ing movement was maintained, so that  
the entire body was circling round the  
musicians. What laughter and fun  
there were! Men and girls giving them-  
selves up to the enjoyment of their  
national dance, which, graceful and exhi-  
lating, bore no trace of the sensual  
movements which usually mark the art  
of dancing in the east.—Blackwood's  
Magazine.

What Started the Fight.

A Philadelphia man was arrested on a  
warrant, charged with assault and bat-  
tery on his wife, and was taken to the  
central station for a hearing. His wife,  
on her oath, said, he beat her so badly  
that she was detained in bed two days.  
When Magistrate South asked him why  
he had beaten his wife, the prisoner  
said, "Well, judge, you see, I opened  
the door and threw my hat inside to see  
if it would be welcomed, and when she  
threw it out I was so mad that I went  
inside and licked her."

How to Make a Handle Stick.

Handles will get loose, do what you  
will, says The Wheel, and some time  
or other they will part company with  
the bar. Forty ways to cement them on  
have been exploited as many different  
times in the columns of the wheel pa-  
pers, but the average stickler on of handles  
makes the mistake of smearing the  
cement over the handle bar instead of  
placing it inside the handle, the conse-  
quence being that the handle when  
forced on, pushes up the cement, which  
forms in an unsightly ring round the  
end of the handle. The proper way is to  
melt a little cement, pour it into the  
mouth of the handle while the latter is  
being revolved, so as to make it run  
round, warm the end of the handle bar,  
but not sufficiently to injure the cork  
or celluloid, and push the handle on.  
The handle bar will thus tend to carry  
the cement further in, and there will be  
none visible round the outside.—Ex-  
change.
